Individual Living Options (ILO)

These support items introduce new options and alternative ways of living for people with a disability. Individualised Living Options (ILOs) are packages of support built considering each individual's preferences, strengths, assets, support requirements, informal and community supports. An Individualised Living Option is not determined by the homeownership or leasing situation or eligibility for Specialist Disability Accommodation (SDA) funding. An Individualised Living Option is the support provided and not the accommodation or dwelling itself.

Individualised Living Options are a quotable support depending on your own individual needs, please get in touch with us to register your interest.

Specialist Behaviour Support and Therapy Services

The provision of behaviour supports plans requires specialised assessment where a client may have complex or unclear needs, requiring long term or intensive support to address behaviours of concern. Behaviour support requires a behaviour support plan to be developed that aims to limit the likelihood of behaviours of concern developing or increasing once identified. The plan outlines the specifically designed positive behavioural strategies for a client, their family and support persons that will achieve the intended outcome of eliminating or reducing behaviours of concern.

Therapy supports facilitate functional improvement or to maintain a level of function. Therapy supports are aimed at adjustment, adaption and building capacity for community participation. Billable activities include assessment, planning and delivery. These supports include Face to Face, Non-Face-to-Face Support Provision, NDIS Requested Reports and Provider Travel time and travel cost.
